TO WHOM IT MAY CONCERN

This is to confirm that Toby has been the superintendent on our project with American Tradition Homes for the repair and reconstruction of outer walls, and the association is extremely pleased with his performance and the professionalism of ATH.

Toby has assured that the work is done diligently and efficiently by all the workers and has dealt with the residents in an extremely professional manner. The repair work has caused extreme discomfort to some of the residents who have been overly distraught while the work was ongoing in their units. Toby has had the patience to work courteously and efficiently with all the residents and has taken care of all the complaints.

I would recommend Toby and ATH highly.
