111 E. Lincoln Rd. Suite 104
Spokane, WA 99206

APR 13 2001

Dear Dan,

On behalf of the Board of Directors at Habitat, Staff, Volunteers and Homeowners, I would like to thank you for donating the use of five pump jack sets for doing our siding. We truly appreciate your generosity and commitment to building a better Spokane community.

Your substantial contribution could not have come at a more important time. At the present time, 17% of families in this area have incomes below the federal poverty level. We are in our thirteenth year of building homes for Spokane area families. Our goal for the year 2001 is to construct fourteen homes for low income families who would otherwise have no hope of owning homes of their own.

Thank you very much for your support. Your on-going generosity helps us to change lives and build families in Spokane, one home at a time.

Sincerely,

Toni Nersesian
Development Director
